MODULAR CUBE

Full modular cubes icemakers range with vertical evaporator and sleek design. The M Series offers a high productivity with an extreme easiness of use.

Full stainless-steel body, easy to inspect. This icemakers line represents the best solution for all needs of high volumes of ice. They can be matched with the wide choice of Icematic storage bins.

All these features make the M series ideal for fast-food, restaurants with high turnover and those activities needing large volumes of ice in short time.

These icemakers are available with three different ice cube sizes LARGE, DICE & HALF-LARGE.

The M Series is the ideal solution for users demanding maximal productivity and great flexibility.

## ACCESSORIES & OPTIONALS

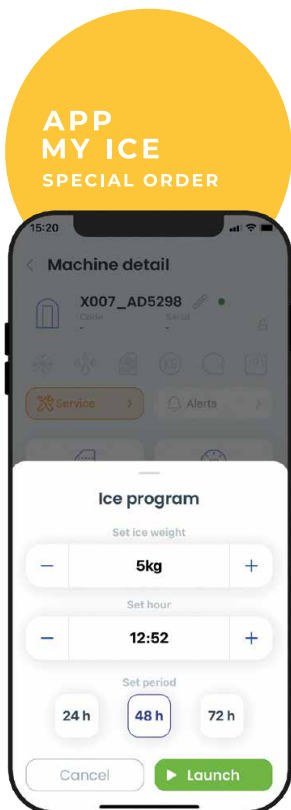

### Rainbow Technology (STANDARD)

Nano-technological patented treatment that strengthens and protects evaporators from aggressive agents and scaling.

### Cleaning Kit (OPTIONAL)

Cleaning kit including a plastic container for the correct dosage of citric acid and a citric acid package of 1 kg.

### MY ICE APP (SPECIAL ORDER)

The My Ice app grants the possibility to have full control of each single machine, via Bluetooth/Wi-Fi.

Icematic is proud to introduce the patented system for ice programmable production with this innovative app.

Through My Ice app, you can start your production cycles for a very defined and programmed quantity of ice, selecting the time when you want it available for use.

These pluses are a true added value to optimize production, while minimizing wastes and providing always freshly-made ice, avoiding the risk of bacterial proliferation.

Through My Ice app, you can start your production cycles for a very defined and programmed quantity of ice, selecting the time when you want it available for use.

Additionally, it is possible to remotely control the current status of the machine, and adjust the storage capacity, with no need to touch or open the machine.

**Managing your ice is a matter of touch on your smartphone, it has never been easier.**
