MY ICE APP

SMART TECHNOLOGY

The My Ice app grants the possibility to have full control of each single machine, via Bluetooth/ Wi-Fi.

Icematic is proud to introduce the patented system for ice programmable production with this innovative app.

Through My Ice app, you can start your production cycles for a very defined and programmed quantity of ice, selecting the time when you want it available for use.

These pluses optimise production, minimise waste and consistently provides freshly-made ice when you need it.

Managing your ice is a matter of touch on your smartphone, it has never been easier.

CHERRY

BRIGHT CUBE

The Cherry series machines from Icematic deliver exceptional production capacity while maintaining a compact design, making them ideal for a variety of settings, from restaurants to cafes.

The perfectly crafted ice cubes, featuring a full, structured shape and smooth rounded surfaces provide extended cooling for your beverages.

These compact and crystal-clear ice cubes offer elegance and efficiency, making them extremely versatile, ideal for a range of uses.
